The decision by these physicians to become financially involved with Coastal Orthopedics Surgery Center is related to a number of factors. These include: priority case scheduling, participation in quality care decisions, close proximity to their offices, and the outstanding people who work at the Surgery Center. We are proud that your physician has chosen to have an ownership interest in the Surgery Center.

If you wish to use another facility for your surgical care, for any reason, please do not hesitate to inform us. We will be happy to contact your physician.
